IS THIS OUR LAST EASTER ON EARTH?

HE IS NOT HERE HE IS RISEN! HALLEJUAH, HE IS RISEN INDEED! AND HE'S COMING BACK FOR HIS CHURCH. MARANATHA – Come Lord Jesus, Come!

Despite all the restrictions on Christian Worship let us celebrate the central tenet of the Christian faith and the gospel of Jesus Christ over the first weekend in April. May God delight in our praise and let the weight of His glory fall upon us, like never before. This might be our last opportunity before the Rapture of the Church. May our worship and praise prepare us for worship in heaven.

HE IS RISEN

Copyright GrahamKendrickMusic

Early morning break of dawn
Stumbling to the tomb
Standing awestruck wondering who
Rolled away the stone
And as the sun came up

Amazed they looked inside
A voice, an angel clothed in light
Don't be afraid, He is alive!

*He is risen
Hallelujah, hallelujah
Christ is risen
Let the whole world sing
Christ is risen
Christ is risen from the dead*

Sing, with all creation sing
Of a world made new
In His life we too may live
Bursting from the tomb
And looking up we see
Our King enthroned on high
His wounds of love now glorified
Rejoice, for soon He'll burst the skies

IS CORONAVIRUS THE JUDGEMENT OF GOD?

We understand from Scripture and the teaching of the Lord that all sickness, disease and natural disasters are the result of sin. King Solomon in his great prayer at the dedication of the Temple says to God, "For there is no one who does not sin" (1 Kings 8:46). The book of Hebrews reminds us "that the cords of sin easily entangle us" (12:1) It is only against God that we sin (Psalm 51:4). That is why only God can forgive us our sin and He does this through so loving the world that he gave His one and only son to be our Saviour (John 3:16). Jesus, we are told, became our sin for us, so that in him we might become the righteousness of God (2 Corinthians 5:21 & 1 Peter 2:24). Jesus took away our sickness and diseases for us (Matthew 8:17; Isaiah 53:4) and he died once and for all for our sin (1 Peter 3:18).

As Christian believers, born-again by the Spirit of God, we believe that all misery in the world can be traced back to the original sin of Adam & Eve. Our world is under judgement for sin.

Even the creation was subject to frustration by the will of the one who subjected it, in the sure hope that the creation will be liberated from its bondage to decay and brought into the freedom and liberty of the children of God. The Apostle Paul tells us in Romans 8:20-22, that the whole of creation has been groaning as in the pains of childbirth right up to the present time.

These pains of childbirth or contractions are forecast and the Coronavirus points to these contractions. There are many Biblical example of God's judgement in the form of diseases. These include, for example, Genesis 12:17; Exodus 7-12; Numbers 12:1-10; 1 Samuel 5:6-12 and 1 Chronicles 21:1-17. In addition, there is the future judgement in the form of disease in Revelation 6:6-8.

Having said all this we can't be certain the Coronavirus is the judgement of God because He has not said that it is. We cannot and should not jump to such conclusions but should remain humble before God and remain silent either way.

WHAT IS THE POSITION FOR BELIEVERS WHO HAVE THE JAB?

We, as believers, cannot lose salvation. This is often referred to by the phrase "Once saved, always saved". There are a number of Scripture verses that support this doctrine. Amongst them are the following:

Hebrews 6:4-6 ESV

"For it is impossible, in the case of those who have once been enlightened, who have tasted the heavenly gift, and have shared in the Holy Spirit, and have tasted the goodness of the word of God and the powers of the age to come, and then have fallen away, to restore them again to repentance, since they are crucifying once again the Son of God to their own harm and holding him up to contempt."

John 10:27-30 ESV

My sheep hear my voice, and I know them, and they follow me. I give them eternal life, and they will never perish, and no one will snatch them out of my hand. My Father, who has given them to me, is greater than all, and no one is able to snatch them out of the Father's hand. I and the Father are one."

John 3:16 ESV

"For God so loved the world, that he gave his only Son, that whoever believes in him should not perish but have eternal life."

I love the promise of Jesus that all who the Father has given to him will not be lost (John 6:39) and also that when we are meet the Lord in the air at the Rapture, we will receive our new immortal body for flesh and blood cannot inherit the Kingdom of God (1 Corinthians 15:50). Therefore, it seems to me that even if our bodies are carrying a gene altering drug (vaccine) then it can have no further effect on us.

In conclusion we can say that (i) our sinful fallen world is under judgement (ii) plagues can be judgements from God, (iii) not all plagues

or diseases are judgements of God and (iv) God is warning us of a great future judgement and telling the world to be ready for it. As born-again believers we will not be with the unbelieving world when these judgements start.

THE STRONG DELUSION TO CAUSE US TO BELIEVE THE LIE

Are we living in a world of delusion?

The Apostle Paul in his second letter to the Thessalonians Chapter 2 and Verses 1-7 explains to the Thessalonian Christians that they must not be deceived into believing that they have missed the Rapture of the Church and that they are now living in the Tribulation period. He tells them,

“Concerning the coming of our Lord Jesus Christ and our being gathered to him, we ask you, brothers and sisters, ² not to become easily unsettled or alarmed by the teaching allegedly from us—whether by a prophecy or by word of mouth or by letter—asserting that the day of the Lord has already come. ³ Don’t let anyone deceive you in any way, for that day will not come until the rebellion occurs and the man of lawlessness^[a] is revealed, the man doomed to destruction. ⁴ He will oppose and will exalt himself over everything that is called God or is worshiped, so that he sets himself up in God’s temple, proclaiming himself to be God.

⁵ Don’t you remember that when I was with you I used to tell you these things? ⁶ And now you know what is holding him back, so that he may be revealed at the proper time. ⁷ For the secret power of lawlessness is already at work; but the one who now holds it back will continue to do so till he is taken out of the way.” (NIV)

Paul is concerned to hear that this church has been thrown into unsettled and alarmed because of misunderstanding what Paul had previously taught them about the End Times. Paul makes the point that they can’t have missed the Rapture because the ‘man of lawlessness’ has not yet appeared, and the rebellion has not occurred. He describes what the antichrist will do but that the Holy Spirit in the Church is presently holding back both the appearing of the antichrist and his judgement by God. He then tells them in verse 7 that the power of lawlessness is already at work. If it was at work, then in AD 35? Then it is still at work now. It is this fact that we need to consider in the context of all the world-wide rebellion and lawlessness that is causing such concern, fear and anger.

The Covid-19 event

Rather than accept the official narrative about Covid-19 let us examine the deception or delusion caused by the official narrative.

It strongly appears that more people are being killed from Government reactions and treatments than those dying of Covid-19 (without adjusting the figures for false death certificates, no autopsies and having tested positive for Covid within 28 days). There is an urgent need for a rational basis to testing (for all respiratory diseases) and one that doesn't give rise to panic, ill-informed political and medical judgements.

A study in Israel (the most COVID-vaccinated nation in the world) reported something shocking:

In adults over the age of 65, Pfizer's experimental shot killed "about 40 times more (elderly) people than the disease itself would have killed"... and that's just during one 5-week period of time.

You can find the data in the study, but it boils down to this:

0.2% of 100,000 people over the age of 65 died in the waiting period between their first and second shot. That's 200 lives lost.

During the same period of time, less than 5 people out of 100,000 in the same age group... but who didn't get the shot ... died.

In those *under* age 65, the death rate among those vaccinated is an astounding 260% higher than the natural COVID death rate in the same age group!

TWO HUNDRED AND SIXTY PERCENT!!

Never before in world history has a viral disease caused economies to collapse and shut down, people to commit suicide through depressions and hopelessness. Viruses don't do that, Governments do.

Never before in human history have eugenicists and US Army Black Ops Agency (DARPA) been in charge of medical diagnosis, treatment and economic decisions. What we now have is a wicked triumvirate made up of (i) Man-made or computer-generated virus recombinant vaccines (ii) nano technology and (iii) The Internet of Things (5G). Never have we seen such evil means being used to control Governments, Medical

professionals and scientists whilst at the same time providing the solution for Governments, Globalists, Eugenacists and Big Tech to meet their target of 500million world population by 2030 (Agenda 2030) and to then control every aspect of people's transhuman lives via neuro-links and 5G. Worse still all these components exist and are ready to use in 2021. The scientists and techies involved with the digital and 5G are working with the other groups to be able to synthesise our genes using biosensors in the vaccine content (hence 'gene therapy'). They talk at their conferences of 'digital immortality', which, of course, for us Christians exposes the LIE of the devil that what he is offering is his 'mark of the beast' is eternal life, but not the eternal life that is ours with Jesus in His eternal kingdom. A helpful video covering the above points is an interview between Dr Carrie Madej and Allison Teague (journalist) <https://www.bitchute.com/video/xCLi8bvLvFBx>

It is interesting that the vaccine row is bringing out all sorts of 'experts' who try to excuse the evil plans of the globalists by suggesting that the vaccine has been created by very careful and caring scientists and is an excellent vaccine. Geert Vanden Bossche Phd, a world-renowned vaccine designer who has worked for Big Pharma and GAVI is warning the world against 'immune escape' and a huge Covid untreatable world-wide outbreak. His thesis is not that the vaccines are no good but that they should not have been used in the middle of the pandemic. His support for the actual vaccine design shows that he has not understood either the content or the intent of the vaccine. This point has been taken up by Dr Vernon Coleman in his video posted on 14th March 2021 and used to bring a severe warning to the nation and to the world of the impending destruction of humanity, beyond that planned by the globalists.

https://brandnewtube.com/watch/covid-19-vaccines-are-weapons-of-mass-destruction-and-could-wipe-out-the-human-race_GcjtJu9dY1RcSNh.html

The problem for the past 20 years has been about HOW to inject the substrate for the internet connection into the body. This has been solved by the appearance of 'Hydrogel' – nano-liquid particles containing a computer algorithm that will allow the globalists to turn the system on to LIVE when the majority of people have had the full quota of gene therapy.

CCP or the Chinese Communist Party are already something similar on their people and have even introduced AI controlled machines in cafes, restaurants, shopping centres, transport terminals etc to serve the customers and record their habits, contacts and behaviour. The West,

particularly the USA are being strongly influenced by the CCP and say nothing about their human rights violations. We can particularly think of the special internment camps into which the religious groups including Christians have been placed for 'corrective training'. We might see a correlation here to the spiritual battle between good and evil, between life and death, between subjection and freedom and hopefully, take note of how the antichrist's plans are being carried out now, before the tribulation period has even started.

The whole situation is DEMONIC – the Frankenstein monster is out of the laboratory and the Church of God is under such a strong attack, one that is putting our lives at risk dependent upon the decisions we now make. Bribery, corruption, lies, cover-ups and misinformation are the order of the day and the weapons of the devil's warfare. Disinformation and propaganda and psychological warfare are the weapons of choice for the global elite and compliant governments. There is no truth, no justice and no choice. God has been driven out of the Church and Society and Christians, along with Jewish believers are now labelled 'terrorists' in this extreme socialist and woke society. Such is the HOAX of a man-made pandemic being used to restructure the world and reduce its population to a fraction of its present size.

Scripture tells us: *"for the light makes everything visible. This is why it is said, 'Awake, O sleeper, rise up from the dead, and Christ will give you light.'"* Ephesians 5:14 NLT

UK Column News Article by Iain Davies on Friday 12th March 2021 makes the following points: <https://www.ukcolumn.org/article/why-are-we-still-giving-people-covid-19-vaccines>

Recently, Austria, Denmark, Norway, Iceland, Estonia, Latvia, Lithuania, Luxembourg, Romania and Italy put a hold on their roll out of the AstraZeneca COVID-19 vaccine, AZD1222.

In the case of Italy, this followed the deaths of 43-year-old soldier Stefan Patern and 50-year-old Sardinian police officer, David Villa.

Both men were taken ill and died within 48 hrs of receiving the vaccine. This added to the growing tally in Italy of people who have died shortly after vaccination. Neither man was known to have any underlying health conditions.

Austria, Estonia, Latvia, Luxembourg and Lithuania temporarily halted the roll out of one specific batch of the Astrazeneca's vaccine following concerns raised about potential blood clotting problems.

Austria suspended their roll out following the death of a 49-year-old nurse, and severe health complications apparently induced in a 35-year-

old woman who suffered a pulmonary embolism after vaccination with AZD1222.

Denmark, Norway and Iceland temporarily suspended all AstraZeneca vaccines, pending investigation. Unfortunately, the Danish Health Authority, claims, without any evidence that the 'vaccine' is both safe and effective. Meanwhile, in the UK, Dr Phil Brian, safety lead for the Medicines and Healthcare products Regulatory Agency (MHRA), urged people to continue with their vaccinations:

This approach, writes Iain Davies, seems to be at odds with the precautionary principle. Other European countries have suspended their use of the vaccine precisely because they don't know if there is a link between the vaccines and the deaths. The correlation is the reason for caution, yet the MHRA are suggesting that caution need not be applied. It is hard to understand this rationale. There are no completed clinical trials for any of the vaccines currently being administered across the UK and mainland Europe.

We should note, as is pointed out in the article:

- Pfizer's phase III trial won't be completed until January 2023
- AstraZeneca's will be complete in February 2023.

While the MHRA highlight that the link between the blood clotting problems and the vaccines has not been confirmed, the safety and efficacy of the vaccines have not been confirmed either. The MHRA makes no mention of this. The MHRA's most recent adverse events report notes that more than 500 people have died shortly after receiving COVID-19 vaccines: They say "Usage of the AstraZeneca has increased rapidly and as such, so has reporting of fatal events with a temporal association with vaccination however, this does not indicate a link between vaccination and the fatalities reported. At the time of this report, nearly 125,000 people across the UK have died within 28 days of a positive test for coronavirus." (This figure is inaccurate and is grossly overstated).

This statement by MRHA, says Iain Davies, is concerning. The MHRA seems to be claiming that if a person dies shortly after receiving a COVID-19 vaccine this *does not indicate* that there is any link to the vaccine.

This is simply wrong. If someone dies shortly following the administration of a drug then it does indicate that the drug may have been the cause, even if it does not prove it.

The MHRA and UK government appear to want it both ways here: a death following vaccination, no matter the cause, is not vaccine related, yet a death following a positive SARS-CoV-2 PCR test result, no matter the cause, is definitively a COVID-19 death. In neither case is there a determination to investigate.

The MHRA is also eager to highlight that those who have died following the vaccine were *elderly people or people with underlying illness*. Clearly, they consider this another reason not to consider any vaccine injury possible.

It appears every effort has been made to maximise reported COVID-19 mortality while minimising, or even denying, any vaccine related mortality.

The picture is not any better in the EU. COVID-19 vaccines approved by the European Medicines Agency (EMA) haven't completed clinical trials either.

Moderna's mRNA vaccine phase III trial isn't due for completion until October 2022 and Johnson & Johnson's Janssen trials won't conclude until May 2023. The other two vaccines approved by the EMA are AstraZeneca's AZD1222 and Pfizer/BioNTech's BNT162b2 (called *Comirnaty* in the EU.)

However, statements from the Danish authorities and other national regulators indicate the same disparity between required standards of evidence as we have seen here in the UK.

This has not gone unnoticed by the scientific and medical community. Traditional vaccines, such as whole pathogen and sub-unit vaccines, work by introducing dead or weakened pathogens to stimulate a direct immunological response.

Nucleic Acid Vaccines, such as mRNA and recombinant vector vaccines work differently. They introduce genetic material to encode the cellular production of an antigen response without exposure to the target pathogen.

Both mRNA and recombinant vector vaccines are types of gene-based vaccines.

AstraZeneca AZD1222 is a recombinant vector vaccine. It uses a genetically modified chimpanzee adenovirus to carry a SARS-CoV-2 spike protein to the cells which the immune system then recognises to illicit an immune response.

Pfizer/BioNTech's and Moderna's vaccines are based upon messenger RNA (mRNA) encapsulated in lipid nano-particles, which protect the mRNA from being broken apart by the body's enzymes. Once the mRNA enters the cell it stimulates the production of the SARS-CoV-2 spike protein, prompting the subsequent immune response.

While both recombinant viral vector and mRNA are relatively new vaccine technologies, mRNA gene-based vaccines have never been used with a human population. Given that there are no completed clinical trials this means they are, in fact, **EXPERIMENTAL GENE-BASED VACCINES**.

Corona False Alarm? Facts & figures

In their excellent study of Covid-19 in Germany, Husband and wife world renowned virologists, Karina Reiss and Sucharit Bhakdi, made a series of telling points:

- a) The addition of SARS-CoV-2 to the spectrum of viral pathogens did not affect overall mortality in patients with respiratory disease.
- b) As regards the PCR test it is perfectly clear that the test result is error-prone, as is every PCR. How much so, and whether there are significant differences among the available tests, cannot be determined because of lack of data.
- c) When positive tests results drop below a certain limit, it is senseless to continue mass screening for the virus in non-symptomatic individuals. And use of numbers acquired under these circumstances as a reason for implementing any measures should not be tolerated.
- d) With the emergence of new and possibly dangerous disease, autopsies should be undertaken in cases of doubt to clarify the actual cause of death. Only one pathologist ventured to fulfil this task in Germany against official specific advice. The results of his autopsies on all Coronavirus patients should that not one was healthy, and all had pre-existing conditions. The same happened in Switzerland. In Italy autopsies showed that 96% of Covid-19 'deaths' had pre-existing underlying illnesses. Most of the elderly suffered from Pulmonary embolisms, probably caused through prolonged sitting around due to lockdown measures in Nursing Homes, hospitals and family homes.
- e) The problem with coronavirus death counts is such that numbers can be viewed as nothing more than gross overestimates.
- f) The mortality rate of Covid-19 is within the range of seasonal flu i.e 0.1%-0.3%. According to Stanford professor John Ioannidis the median infection fatality rate was .27%.
- g) All studies to date show that SARS-CoV-2 is not a killer virus. Instead, scientists can say that Covid-19 is a disease that makes some people sick, proves fatal to a few, and does nothing to the rest. Like any annual flu.

Other important observations and points made in the book concern aspects such as the need for professional and critical analysis to determine the nature of any epidemic situation. Presumably, that is why in the UK, SAGE and its various subsidiary groups are full of military psych ops people, non-scientists, non-medical experts and research professors, advertising and mind science technicians?

The English Professor, John Oxford, one of the best-known Virologists world-wide, said the following about the coronavirus crisis: *“personally, I would say the best advice is to spend less time watching TV news which is sensational and not very good. Personally, I view this COVID outbreak as akin to a bad winter influenza epidemic. We are suffering from a media epidemic!”* We might add more to the statement about the media as we know that it is all Government propaganda and part of an evil psychological game being played on the country by the Government.

Just consider this comment from renowned virologist Pablo Goldschmidt in March 2020. *“We are all locked up. In Nice there are drones that impose fines on people. How far has this monitoring gotten? You have to read Hannah Arendt and look very closely at the origins of totalitarianism at that time. If you scare the population, you can do anything with it.”* (Hannah Arendt who died in 1975 was a German-born American political theorist. Her many books and articles have had a lasting influence on political theory and philosophy.)

Money making on a Grand scale!

Big Pharma is in it for the money and so are their various political, wealthy and scientific shareholders. GSK with Sanofi is supplying the US with 100m does of Covid-19 vaccine at \$9.26 per vaccine and as two doses are needed that would amount to \$1,852,000,000. Astrazeneca is looking to provide the EU countries with 2bn doses at 1.78Euros each. According the MRHA ‘Board members’ financial interests, writes Stephen Green in the March Edition of Christian Voice, its chairman, Stephen Lightfoot, is a shareholder of GSK. The Government Chief Scientific Advisor Sir Patrick Valance also holds shares in GSK (£600,000 worth). The other two Board Members are shareholders of Astrazeneca! In addition, Matt Hancock and his family have shares in Babylon Health and their friends have received millions for government Covid contracts. Other members of the various advisor groups including Sage shown below all are implicated in receiving grants, shares, prominent appointments from HMG, Gates Foundation, GAVI, CEPI and Big Pharma. For more details see the article by Vanessa Beeley on UK Column Website <https://www.ukcolumn.org/article/covid%E2%80%93big-pharma-players-behind-uk-government-lockdown>

On 18th March, Israel News carried breaking news about Israel paying Fauci \$1m ‘gift’. ***U.S. officials should not accept money from foreign sources for the positions they take in our government.*** By E. Donald Elliott, *American Spectator*. The essence of law, he writes, is even-handed

application of neutral principles to those whom we like and those whom we dislike or with whom we disagree.

We should not be under any delusion as to how unrighteous this whole HOAX is. Just look at the following diagram showing the structure of the groups appointed by the Government to advise on a medical crisis! Very few medical doctors, virologists etc but plenty of modellers, mathematicians, and psychiatrists and psychological warfare specialists.

The Globalist Agenda

Governments and their globalist sponsors are moving so quickly to take control of the world. Their chosen method is through persuading the world to take a vaccine to cure them of and protect them from the Covid-19 virus. This is gene warfare, using a variety of experimental deadly vaccines. By this method they can fulfil two main objectives of the

globalist cabal and its subsidiaries, namely a massive reduction in the earth's population and control over the remaining people of the earth. One of the unseemly and immoral actions that they have taken is to dupe the relevant medical authorities to issuing temporary permissions for the vaccines to be used immediately before the rest of the world discovers what the vaccines contain. In addition, the pharmaceutical companies are making billions, more than ever before through their stated intention to vaccinate the whole world, not just once, or twice, but every six months. This scenario only benefits the Big Pharma companies by billions of dollars every year.

The marks of the globalist plan can be summarised by the following examples: (also included in the August 2020 Newsletter)

- **Media-fuelled mass hysteria and hype.**
- **Bribery of scientists and researchers through huge 'grants' to follow the party line.**
- **Bribery of Government officials and officials via shares in Big Pharma & cash sums or grants to other government agencies.**
- **Arbitrary political decisions (or apparently arbitrary) but followed by groups of countries, showing that they are all using the same play book.**
- **Massive restrictions on fundamental rights, movements, and interactions and huge increase in public and internet/digital surveillance.**
- **World-wide digital censorship by 'Big Tech' platforms.**
- **Censorship of freedom of expression and enforcement by Police**
- **Enforced conformity of the media who in return are paid to follow the Government's script.**
- **A massive reduction of the world population from 8.5billion to 500million.**
- **A realignment of agriculture and food production to remove meat, poultry, and traditional foods in favour of low carbon actions to plant more trees and increase flower emadows!**
- **Defamation and ridiculing of dissidents (those who are differently minded). Accusations against dissidents of being 'terrorists' or conspiracy theorists.**
- **Denunciation of individuals and groups who speak out or challenge the official narrative.**
- **Dangerous human experiments such as untried and untested therapies.**
- **Threats of unemployment, closing of bank accounts, restrictions on travel at home or abroad.**
- **Threats of a 'Great Reset' as the world economic system is cancelled and lives then controlled by the globalists.**

Wasn't it Abraham Lincoln who said "You can fool all of the people some of the time, and some of the people all the time, but you cannot fool all of the people all of the time."

Now, a year on from the start of this global fake pandemic, many people are challenging the whole basis of the so called 'pandemic' and also the actions of Governments all over the world.

In His second letter to the Thessalonians, the Apostle Paul explains to them that although the Rapture has not yet occurred, nevertheless, God will send a powerful delusion on all unbelievers, so that they will believe the LIE (2 Thessalonians 2:11). As the man of lawlessness is at work today, as we saw at the beginning of this newsletter, there is clearly a big delusion over the world today. The **LIE** is the plan of satan to try and take the place of God and kill all believers, Jew and gentile who are converted in huge numbers during the Tribulation period. Satan will demand worship on pain of death, and many will refuse to worship him and be martyred. He will demand that all have a mark on them to show his ownership of them. Many, again, will refuse and be beheaded. During this time the lie will be exposed by the Lord Jesus Christ through a series of judgements on the unbelieving world, both people and land. Satan, the antichrist and the false prophet who are all architects of the LIE will be thrown into hell (at different times) for eternity.

The **LIE** can be seen now all around, politically, socially, religiously, and environmentally. Covid is part of the **LIE** and must be exposed so that as many people as possible may come to Jesus in these last hours and be saved for eternity.

The kickback has started through the intercessory prayers of the saints, the medical and scientific challenges to the lies that have been presented to us for over a year.

FIRSTLY – Urgent safety questions raised by Doctors

On 10th March, **BREAKING NEWS**: Doctors and Scientists from Doctors for Covid Ethics, wrote to European Medicine Agency about Covid-19 vaccines. This is action is hugely important, and the Church should take notice of it, particularly the Church denominations that closed their doors to worship yet opened them readily as vaccine centres.

A group of scientists and doctors has today issued an open letter calling on the European Medicines Agency (EMA) to answer urgent safety questions regarding COVID-19 vaccines or withdraw the vaccines' authorisation.

The letter describes serious potential consequences of COVID-19 vaccine technology, warning of possible autoimmune reactions, blood clotting abnormalities, stroke and internal bleeding, "including in the

brain, spinal cord and heart". The authors request evidence that each medical danger outlined "was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA." **"Should all such evidence not be available", the authors write, "we demand that approval for use of the gene-based vaccines be withdrawn until all the above issues have been properly addressed by the exercise of due diligence by the EMA."**

The letter is addressed to Emer Cooke, Executive Director of the EMA, and was sent on Monday 1 March 2021. The letter was copied to the President of the Council of Europe and the President of the European Commission.

It states: "We are supportive in principle of the use of new medical interventions." However, "there are serious concerns, including but not confined to those outlined above, that the approval of the COVID-19 vaccines by the EMA was premature and reckless, and that the administration of the vaccines constituted and still does constitute 'human experimentation', which was and still is in violation of the Nuremberg Code."

Urgent Open Letter from Doctors and Scientists to the European Medicines Agency regarding COVID-19 Vaccine Safety Concerns

From: Doctors for Covid Ethics

To: Emer Cooke, Executive Director, European Medicines Agency, Amsterdam, The Netherlands
28 February 2021

Dear Sirs/Mesdames,

FOR THE URGENT PERSONAL ATTENTION OF: EMER COOKE,
EXECUTIVE DIRECTOR OF THE EUROPEAN MEDICINES AGENCY

As physicians and scientists, we are supportive in principle of the use of new medical interventions which are appropriately developed and deployed, having obtained informed consent from the patient. This stance encompasses vaccines in the same way as therapeutics.

We note that a wide range of side effects is being reported following vaccination of previously healthy younger individuals with the gene-based COVID-19 vaccines. Moreover, there have been numerous media reports from around the world of care homes being struck by COVID-19 within days of vaccination of residents. While we recognise that these occurrences might, every one of them, have been unfortunate coincidences, we are concerned that there has been and there continues

to be inadequate scrutiny of the possible causes of illness or death under these circumstances, and especially so in the absence of post-mortem examinations.

In particular, we question whether cardinal issues regarding the safety of the vaccines were adequately addressed prior to their approval by the European Medicines Agency (EMA).

As a matter of great urgency, we herewith request that the EMA provide us with responses to the following issues:

1. Following intramuscular injection, it must be expected that the gene-based vaccines will reach the bloodstream and disseminate throughout the body [1]. We request evidence that this possibility was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.

2. If such evidence is not available, it must be expected that the vaccines will remain entrapped in the circulation and be taken up by endothelial cells. There is reason to assume that this will happen particularly at sites of slow blood flow, i.e. in small vessels and capillaries [2]. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.

3. If such evidence is not available, it must be expected that during expression of the vaccines' nucleic acids, peptides derived from the spike protein will be presented via the MHC I — pathway at the luminal surface of the cells. Many healthy individuals have CD8-lymphocytes that recognize such peptides, which may be due to prior COVID infection, but also to cross-reactions with other types of Coronavirus [3; 4] [5]. We must assume that these lymphocytes will mount an attack on the respective cells. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.

4. If such evidence is not available, it must be expected that endothelial damage with subsequent triggering of blood coagulation via platelet activation will ensue at countless sites throughout the body. We request evidence that this probability was excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.

5. If such evidence is not available, it must be expected that this will lead to a drop in platelet counts, appearance of D-dimers in the blood, and to myriad ischaemic lesions throughout the body including in the brain, spinal cord and heart. Bleeding disorders might occur in the wake of this novel type of DIC-syndrome including, amongst other possibilities, profuse bleedings and haemorrhagic stroke. We request evidence that

all these possibilities were excluded in pre-clinical animal models with all three vaccines prior to their approval for use in humans by the EMA.

6. The SARS-CoV-2 spike protein binds to the ACE2 receptor on platelets, which results in their activation [6]. Thrombocytopenia has been reported in severe cases of SARS-CoV-2 infection [7].

Thrombocytopenia has also been reported in vaccinated individuals [8]. We request evidence that the potential danger of platelet activation that would also lead to disseminated intravascular coagulation (DIC) was excluded with all three vaccines prior to their approval for use in humans by the EMA.

7. The sweeping across the globe of SARS-CoV-2 created a pandemic of illness associated with many deaths. However, by the time of consideration for approval of the vaccines, the health systems of most countries were no longer under imminent threat of being overwhelmed because a growing proportion of the world had already been infected and the worst of the pandemic had already abated. Consequently, we demand conclusive evidence that an actual emergency existed at the time of the EMA granting Conditional Marketing Authorisation to the manufacturers of all three vaccines, to justify their approval for use in humans by the EMA, purportedly because of such an emergency.

Should all such evidence not be available, we demand that approval for use of the gene-based vaccines be withdrawn until all the above issues have been properly addressed by the exercise of due diligence by the EMA.

There are serious concerns, including but not confined to those outlined above, that the approval of the COVID-19 vaccines by the EMA was premature and reckless, and that the administration of the vaccines constituted and still does constitute “human experimentation”, which was and still is in violation of the Nuremberg Code.

In view of the urgency of the situation, we request that you reply to this email within seven days and address all our concerns substantively. Should you choose not to comply with this reasonable request, we will make this letter public.

SECONDLY - What is the truth about the efficacy of the proposed vaccines?

1. The so called Covid-19 virus is not a natural virus. It is man-made from HKU3 samples from bat faeces mixed with SARS Cov-2 spike protein, using laboratories in Wuhan, America and Canada, and funded clandestinely by CDC using Obama Administration funds that had supposedly been cancelled. It was released from the Wuhan laboratory, but the Chinese removed all traces and denied world virologists access to the lung tissue tests and findings from the first human to develop the disease.
2. The Covid -19 virus does NOT exist in the human genome. It was called a 'novel' virus because there is no antigen response to it from auto-immune system. The virus has never been isolated in a laboratory, grown in a lab or used to infect people and make them sick. It has been taken from a culture. Virus isolates are unavailable anywhere. Pfizer have NO virus. They have invented a 'make believe' virus in order to invent a 'vaccine'.
3. The so-called vaccines cannot be called vaccines because they do not contain any Covid material only computer produced codes that are based on part of a SARS-Cov2 spike protein. Lipid particles (nano technology) form an envelope to stop the body immune system from destroying it immediately. The lipid particles (polyethylene glycol) cause blood clotting and is a 'novel' constituent as it has never been used before. It causes anaphylactic shock and increases cardio-vascular problems. This vaccine should NOT be used without informed consent – there is no such advice available and even GP's and hospital doctors are not aware of this and so cannot tell their patients who may enquire about the efficacy of the vaccine.
4. The proper term for these is **Gene Therapy**. The gene altering aspect of the mRNA vaccine enters the cell and tricks it into making part of the spike protein. Therefore, the therapy is neither harmless nor able to build up 'T cell' immunity. Analysis of the mRNA vaccine shows that there are three very worrying contents:
(i) There are parts of the HIV genetic code. In Australia some people after vaccination have been found to be HIV positive!
(ii) The code sequence includes Chromosome 8 that naturally occurs in the body and controls intelligence and fertility. Immediate results from the vaccine shows many miscarriages occurred spontaneously and other people suffered cognitive impairment.
(iii) synthetic codes of the placenta are in the vaccine which will lead to the immune system attacking the woman's placenta and causing

- sterility. There symptoms have already been reported and in previous inoculations in Africa many young women suffered miscarriages and aborted pregnancies and others became sterile.
5. Pfizer failed to make known on its guidance that couples should NOT engage in unprotected sex for 28 days after having their mRNA vaccine! Many couples were not aware of this nor its implications for birth defects, abortions, sterility, and other physical problems. We should remember that US companies are making these vaccines under Emergency Procedures which means that there are NO checks or balances, and NO-ONE can say that these vaccines are safe and effective.
 6. None of the gene therapies on offer are certified as safe to use by the relevant authorities in the US or the UK. They have failed to follow required testing procedures and have deliberately missed out various important procedures. James Lyons-Weiler states that Pfizer and Moderna used animals briefly in their testing, but these were older primates and 37 out of 38 had immuno-genetic episodes with significant effects on heart and mind and other 'off-target' organs (i.e they didn't look at wider effects)
 7. The therapies are licensed only for emergency use and are entirely experimental. They cannot be licensed as safe until 2023 after all the data is checked.
 8. There is NO proof that the therapies will stop transmission (confirmed by US Surgeon General) and NO proof that it will protect people from the alleged virus. In addition, there is NO proof that it reduces mortality from the alleged virus. The mRNA virus subdues symptoms so the PCR test will not find it, thus causing more asymptomatic carriers to be able to pass on the virus through droplets in coughs and sneezes.
 9. These therapies are being used to cull the world population beginning with elderly in care homes, then various groups like those with learning difficulties. Now they are being mandated for use with children and young people, a group, not at risk from the alleged Covid-19 or any alleged mutation.
 10. The contents and mechanism of the therapies are causing over 5% deaths within a week of injection plus thousands of serious adverse reactions.
 11. Worse still the therapies using the mRNA are experimenting with an untried and tested mechanism that was never licensed or

approved in the ten years while it was being used in experiments by the military in conjunction with DARPA and CDC in the US. The use of a code in these therapies ensures that the mRNA enters the body cells and then mimics Covid-19 indefinitely by replicating the code. Until these therapies were produced, mRNA could never get into the human genome.

12. Fauci and Big Pharma were warned in April 2020 that their vaccines were unsafe if they continued to include protein causing disease enhancement. Bacterial proteins lead to 'pathogen priming' and autoimmunity encephalitis. James Lyons-Weiler sent them his research paper in 2020 and none responded to his warnings. He emphasised that their therapies would cause worse coronavirus symptoms, and mass problems after vaccination and upon exposure to the coronavirus (Cold/flu/Covid) in the next season.

13. Experienced scientists like Dr Thomas Caran call this 'Covid Pandemic' **a scientific fraud**. As UK Column News regularly report using ONS and NHS data, the 'all-cause mortality' has not changed over the past ten years. They also report that since December 2020 there has been no seasonal flu in the UK or in the world! Even the WHO shows no data for flu. Why is that? The flu jab does not work against seasonal flu and the flu appears every winter season around the world in varying intensities. Clearly there is yet another piece of psychological deception taking place.

14. These gene therapies will all lead to huge restrictions in freedoms especially after exposure to future coronaviruses cause massive Cytokine Storm reactions. (Judy Mikovits)

15. Dr Thomas Caran strongly suspects that the 'virus' is actually radiation poisoning, caused by 5G because the effects of 5G are to reduce oxygen levels and produce hyper-inflammation, both of which are the main symptoms of 'Covid'.

THIRDLY – mRNA precipitates cancer causing changes.

According to Natural News.com, there's a secret layer of information in your cells called messenger RNA, that's located between DNA and proteins, that serves as a critical link. Now, in a medical shocker to the whole world of vaccine philosophy, scientists at Sloan Kettering found that mRNA itself carries cancer CAUSING changes – changes that genetic tests don't even analyse, flying completely under the radar of oncologists across the globe. So now, it's time for independent

laboratories that are not vaccine manufacturers (or hired by them) to run diagnostic testing on the Covid vaccine series and find out if these are cancer-driving inoculations that, once the series is complete, will cause cancer tumours in the vaccinated masses who have all rushed out to get the jab out of fear and propaganda influence. Welcome to the world of experimental and dirty vaccines known as mRNA “technology. (taken from the online article <https://www.naturalnews.com/2021-03-02-scientists-discover-mrna-inactivates-tumor-suppressing-proteins.html>)

And she was the single mother of a 9-year-old girl.

Kassidi Kurill was a happy, healthy, 39-year-old surgical tech who had no reservations about receiving her second COVID shot.

In fact, she'd been urging her family to get vaccinated, too. **But just four days after** Kassidi received her second Moderna shot, she died of liver failure.

With no pre-existing health conditions or recent illnesses, she'd experienced soreness in her arm but no other symptoms with the first shot.

The second was a different story, Kassidi's father reports. The problems started immediately afterward, when she “got sick right away, soreness at the shot location, then started getting sick then, started complaining that she was drinking lots of fluids but couldn't pee, and then felt a little better the next day.”

She was down sick for 2 days, and on the third day she woke up seriously ill. Her heart was racing, and she knew she was in trouble. Her father rushed her to the ER, where they did a blood test and discovered that Kassidi was in complete liver failure. She was rushed to a trauma centre in hopes that an emergency liver transplant might save her life.

Both of Kassidi's parents quickly volunteered to be donors, but it was too late.

Within hours, her kidneys, heart, and liver had all shut down and she passed away with her father at her side.

Utah's chief medical examiner is performing an autopsy, but does not expect that it will prove the young mother died because of the vaccine. He commented that, short of a person dying of anaphylaxis immediately after the shot, it's rare to be able to prove a connection. But Kassidi's family feels otherwise.

“She was fine the day that she got the shot, and then everything changed,” her sister says. Her father agrees. She was “healthy and good — then she took the shot,” he says. He went on to say that unless the autopsy shows something unexpected, he “must believe there was something with the shot.”

Kassidi's daughter will live with her grandparents, and the family will be waiting for months before the autopsy is complete.

FOURTHLY - Testing for Covid

The Fine Print: UK Government Finally Admits PCR Test Generates False Positives

MARCH 10, 2021 BY [NEWS WIRE](#) 6 COMMENTS

After months by independent journalists and honest medical professionals raising the alarm about widespread fraudulent use the PCR test, the UK Government has finally admitted, albeit in the fine print of its website, that *uninfectious* people will test ‘positive’ with a PCR test.

According to the UK government’s own website:

6. SARS-CoV-2 re-testing in staff, patients and residents in health and social care settings
*Immunocompetent staff, patients and residents who have tested positive for SARS-CoV-2 by PCR should be exempt from routine re-testing by PCR or LFD antigen tests (for example, repeated whole setting screening or screening prior to hospital discharge) within a period of 90 days from their initial illness onset or test (if asymptomatic) unless they develop new COVID-19 symptoms. This is because **fragments of inactive virus can be persistently detected by PCR** in respiratory tract samples following infection – long after a person has completed their isolation period and is no longer infectious.*

In other words, it can never be used as a medical diagnostic test, only as a research tool, something which its Nobel Prize-winning inventor had repeatedly warned about.

Bear in mind that from the beginning of the supposed ‘global pandemic,’ governments and public health officials have told the public that the PCR test is the “gold standard” for SARS-CoV-2 diagnosis. However, it has also been clear from the onset that the opposite is true – that the PCR test is **the most inaccurate test** imaginable, and it’s fraudulent use by the science and medical communities has generated a mountain of false positive “cases” and deaths – all of which officials and corporate opportunists have cynically used to drive every COVID-19 mitigation policy, from **social distancing** and **masks**, to **lockdowns**, **school shutdowns**, **mass vaccinations**, **waving normal vaccine regulatory and testing procedures**, and now **vaccine passports**. Without the fraudulent use of the PCR test, none of these authoritarian policies would have been possible.

In summary we can say:

1. The PCR test is not designed for testing virus.
2. The PCR test is inaccurate, and the results change as the number of cycles increase thereby giving higher or lower false positives.
3. A positive PCR does not mean that the person has the virus.
4. A positive test result does not mean another ‘case’.

FIFTHLY - Lockdown deaths, suicides and social problems

As the mainstream media and Big Tech continue their all-out effort to censor and silence any dissent on the COVID vaccine narrative, information continues to emerge showing more vaccine injuries and deaths.

In Japan more people have died from suicide than of the Covid-19 virus. This is due to the lockdown rules.

THE EVIL ACTIONS OF BIG PHARMA

Reports from Gravitas Live WION News (<https://www.wionews.com/live-tv>) have been bringing reports from South American countries of the threats and demands ('high level bullying') being made by Pfizer for agreeing to supply the vaccine. Pfizer's conditions include demanding up-front payment for the vaccines, guarantees of full indemnities against any claims for death, injury or sickness attributed to the vaccine or negligence, and to underpin the indemnities each country must give legal rights to their sovereign assets including military bases and their bank assets. They also want the government to pass laws that absolve Pfizer from domestic laws.

A number of smaller countries have refused the Pfizer vaccine, but Pfizer continues to bully and threaten Argentina & Brazil and horror stories also continue to emerge. Against all this evil is the fact that Pfizer stand to make \$15bn profit this year from the vaccine. Even Germany was bullied into making a payment of Euro400m to secure an order.

Israel - Israel paid a premium, locked in an early supply of Pfizer-BioNTech vaccines and struck a unique deal: vaccines for data. ... "We said to Pfizer ... that the moment they give us the vaccine, we'll be able to vaccinate at the speed they've never heard of," Israel's health minister Yuli Edelstein tells NPR. (31 Jan 2021)

Where do we go from here?

The answer will depend on whether you are a Christian or not and if your world-view is formed by Judeo-Christian belief and Bible Prophecy.

"I have never known more than fifteen minutes of anxiety or fear. Whenever I feel fearful emotions overtaking me, I just close my eyes and thank God that He is still on the throne reigning over everything and I take comfort in His control over the affairs of my life." — John Wesley

I like this outlook that Mark Hitchcock included in his book "Corona Crisis". He wrote *"Every outbreak of pestilence, whether a localised epidemic or a global pandemic, should remind us of the Lord's words, and force the question upon us, 'Am I ready for Christ's return? Have I bowed the knee to Jesus as Lord? Am I living the faithful, godly life he has called me to? Will I be put to shame at His appearing?'"* The Coronavirus should impress upon us afresh that this world is passing away, that history is not going round in circles but heading towards a great and terrible Day of Judgement."

Be Ready

Luke 21:36; Rev 3:3; 1Thess 5:2-3; 1 Peter 4:7; 1 Cor 16:13 & Titus 2:11-13

- Expect the Lord's return very soon. The Rapture can happen at any time.
- There will be sudden destruction through an all-out war in the Middle east. Isaiah 17:1; Ezekiel 38-39; Daniel 9:27
- There will be a world-wide economic collapse leading the 'Great Reset' (WEF). Covid-19 will be the pin that causes the explosion (J D Farag)
- There will be increased pressure for more vaccinations.
